

American Chemical Society Symposium

PM Formation in Fuel Combustion

March 25th – 29th, 2007, Chicago, IL
233rd American Chemical Society (ACS) National Meeting
Sponsored by the ACS Fuel Chemistry Division

Preprints due on-line by November 17, 2006

Call for Papers

The symposium will focus on the formation of particulate matter in a broad range of fuel combustion processes. Specific subjects of interest include, but are not limited to

- ❖ Mechanistic studies of PM formation
- ❖ Emissions characterization
- ❖ Source-specific contributions (biomass, waste, coal, petroleum)
- ❖ PM chemistry

On-line Submissions:

On-line submission of both an abstract and a preprint are required on-line at the ACS OASYS website: <http://oasys.acs.org/oasys.htm>

Instructions and the preprint template are available at ACS Fuel Chemistry Division website: <http://www.anl.gov/PCS/acsfuel/preprintinfo.html>

In addition, please contact one of the co-chairs for inquiries and submissions:
