

**INSTRUCTIONS TO AUTHORS  
FOR PREPRINTS OF THE AMERICAN CHEMICAL SOCIETY  
DIVISION OF FUEL CHEMISTRY**

Jerry Hunt  
Chemistry Division, Building 200  
Argonne National Laboratory  
Argonne, IL 60439

KEYWORDS: Indicate 3 key words or phrases

**INSTRUCTIONS FOR AUTHORS**

Center and capitalize the title, center the authors and affiliations. Use full justification for the remainder of the text. No extra material such as identification of the meeting is to be placed ahead of the title. An abstract at the beginning of the preprint is optional. Please note that the headings follow the typical paper format of Introduction, Materials and Methods (or Experimental), Results, Discussion, Conclusions, Acknowledgements and References. Tables and Figures follow at the end or may be embedded in the text; please see earlier preprints for examples. Note the heading style above (left justified, all capitals).

Papers must be typed on legal size (8.5" x 14", 21.6 cm x 35.6 cm) white pages. **All text, figures and tables must fit within a box measuring 6.5" x 13" (16.5 cm x 33 cm).** This means that the left and right margins are 1" while the top and bottom margins are 1/2" on standard U.S. legal-size paper. Use a 12- or 13- point font. SINGLE SPACE the entire document. Text is in a single column.

Begin the body of the preprint immediately after the heading or abstract (do not waste the balance of the page). Do not type page numbers anywhere on the page. The preprint is photographed directly and then printed from the photo master. **THIS IS A CAMERA-READY PROCESS.** The final appearance will reflect on the care that you personally use in the preparation.

Place **THREE FIGURES PER PAGE** or more if legibility permits, all fitting within the template box measurements provided above.

Place **THREE TABLES PER PAGE** where table size permits, again fitting within the template box measurements provided above.

**FIGURE CAPTIONS** are included with the figures, not on a separate page.

The division has a "NO PAPER, NO PODIUM" policy. Preprints must be received in the correct format by the deadline or else the paper will be **WITHDRAWN** from the program; no time slot will be allowed for oral presentation without the published preprint.

Papers that are longer than 5 pages will be invoiced for excess page charges at the rate of \$25 (US) per page. Longer papers are not encouraged

Most journals, and *Energy & Fuels* in particular, will not publish a paper that is essentially the same as one which has appeared in the Fuel Chemistry Division preprints. This is an issue of devoting scarce and expensive journal pages to material that is already available. Expanded or more detailed papers are still of interest to the journals.

Please provide an original (not stapled) and two copies to your symposium chair. Pencil the first author's last name in the upper left corner of each page of the original, along with the page number of the preprint. Do not shrink the size of the copies - have them on large paper as well.

\*\*\*\*\*

Thank you for publishing in the ACS Fuel Chemistry Division preprints.
