

CALL FOR PAPERS

Application of X-ray & Neutron Methods to Complex Systems in Energy & Fuels Science

San Francisco, CA
March 26-31, 2000

Division of Fuel Chemistry
American Chemical Society

Systems include but are not limited to: catalysts, carbons, oils, coals, polymers, fuel cells, rechargeable batteries, etc.

Techniques include but are not limited to: neutron and x-ray methods such as diffraction and scattering, including the use of synchrotron sources

Abstracts and Preprints are due to an Organizer by 10/15 & 11/15/99, resp.:

Dr. Kathleen A. Carrado
CHM 200, Argonne National Laboratory
9700 S. Cass Ave., Argonne, IL 60439
(630) 252-7968, fax 252-9288
kcarrado@anl.gov

Dr. Katsuyasu Sugawara
Fac. of Engineering & Resource Science
Akita University, Japan
Tel. & Fax 0188(89)2748
katsu@ipc.akita-u.ac.jp
