I. DEAR 970.5227-4 Authorization and Consent (AUG 2002)

II. DEAR 970.5227-5 Notice and Assistance Regarding Patent and Copyright Infringement (AUG 2002)

III. Patent Rights—Special W(C)-90-014

IV. FAR 52.227-14 Rights in Data (Alternate V, and DEAR 927.409 (a), (d)(3)) (JUN 1987)

V. FAR 52.227-16 Additional Data Requirements (JUN 1987)

VI. Conflict of Interest
I. **DEAR 970.5227-4 AUTHORIZATION AND CONSENT (AUG 2002)**

The Government authorizes and consents to all use and manufacture of any invention described in and covered by a United States patent in the performance of this contract or any subcontract at any tier.

II. **DEAR 970.5227-5 NOTICE AND ASSISTANCE REGARDING PATENT AND COPYRIGHT INFRINGEMENT (AUG 2002)**

The provisions of this clause shall be applicable only if the amount of this contract exceeds $100,000.

(a) The Contractor shall report to the Government through the Laboratory, promptly and in reasonable written detail, each notice or claim of patent or copyright infringement based on the performance of this contract of which the Contractor has knowledge.

(b) If any person files a claim or suit against the Government on account of any alleged patent or copyright infringement arising out of the performance of this contract or out of the use of any supplies furnished or work or services performed hereunder, the Contractor shall furnish to the Government, when requested by the Government or the Laboratory, all evidence and information in possession of the Contractor pertaining to such suit or claim. Except where the Contractor has agreed to indemnify the Government or the Laboratory, the Contractor shall furnish such evidence and information at the expense of the Government.

(c) The Contractor agrees to include, and require inclusion of, this clause suitably modified to identify the parties, in all subcontracts at any tier expected to exceed $100,000.

III. **PATENT RIGHTS-SPECIAL W(C)-90-014**

(a) Definitions.

"Subject Invention" means any invention or discovery of the Contractor conceived or first actually reduced to practice in the course of under this contract, and includes any art, method, process, machine, manufacture, design, or composition of matter, or any new and useful improvement thereof, or any variety of plants, whether patented or unpatented under the Patent Laws of the United States of America or any foreign country.

"Patent Counsel" means the Department of Energy Patent Counsel assisting the procuring activity.

(b) Invention disclosures and reports

(1) The Contractor shall furnish to the Patent Counsel and the Laboratory:
(i) A written report containing full and complete technical information concerning each Subject Invention within 6 months after conception or first actual reduction to practice whichever occurs first in the course of or under this contract, but in any event prior to any on sale, public use, or public disclosure of such invention known to the Contractor. The report shall identify the contract and inventor and shall be sufficiently complete in technical detail and appropriately illustrated by sketch or diagram to convey to one skilled in the art to which the invention pertains a clear understanding of the nature, purpose, operation and to the extent known the physical, chemical, biological, or electrical characteristics of the invention.

(ii) Upon request, but not more than annually, interim reports on a DOE approved form listing Subject Inventions for that period and certifying that all Subject Inventions have been disclosed or that there were no such inventions; and

(iii) A final report on a DOE-approved form within 3 months after completion of the contract work listing all Subject Inventions and certifying that all Subject Inventions have been disclosed or that there were no such inventions.

(2) The Contractor agrees that the Government and the Laboratory may duplicate and disclose Subject Invention disclosures and all other reports and papers furnished or required to be furnished pursuant to the contract.

(c) Rights under Class Advance Waiver: Pursuant to the Department of Energy’s “Class Advance Waiver of U.S. and Foreign Rights for Inventions Made by Particular Individuals at DOE National Laboratories,” the Laboratory shall have the right to elect title to Subject Inventions. Such election shall be in accordance with the terms of the Laboratory’s Prime Contract with the Department.

(d) If the Laboratory declines to elect title in accordance with the terms of the Laboratory’s Prime Contract with the Department, title to Subject Inventions shall vest in the U.S. Government pursuant to 42 USC 5908 and 42 USC 2182.

(e) As required by the terms of the waiver, the Laboratory shall treat persons working under this contract as their own employees for purposes of distribution of royalties from Subject Inventions.

(f) The Contractor shall obtain patent agreements to effectuate the provisions of this Patent Rights clause from all persons who perform any part of the work under this contract except non-technical personnel, such as clerical employees and manual laborers.

(g) Atomic Energy

(1) No claim for pecuniary award or compensation under the provisions of the Atomic Energy Act of 1954, as amended, shall be asserted by the Contractor or its employees with respect to any invention or discovery made or conceived in the course of or under this contract.
(2) Except as otherwise authorized in writing by DOE, the Contractor will obtain patent agreements to effectuate the provisions of Paragraph (g)(1) of this clause from all persons who perform any part of the work under this contract except non-technical personnel such as clerical employees and manual laborers.

(h) Publication

In order that information concerning scientific or technical developments conceived or first actually reduced to practice in the course of or under the contract is not prematurely published so as to adversely affect the patent interests of DOE, the Contractor agrees to submit to the Patent Counsel (with a copy to the Laboratory) for patent review a copy of each paper 60 days prior to its intended publication date. The Contractor may publish such information after a 60-day period following such submission or prior thereto if specifically approved by the Patent Counsel via the Laboratory, unless the Contractor is informed in writing within the 60-day period, that in order to protect patentable subject matter, publication must be further delayed. In this event, publication shall be delayed up to 100 days beyond the 60-day period or such longer period as mutually agreed to.

IV. FAR 52.227-14 RIGHTS IN DATA (ALTERNATE V, AND DEAR 927.409 (A), (D)(3)) (JUN 1987)

(a) Definitions.

"Computer data bases," as used in this clause, means a collection of data in a form capable of, and for the purpose of, being stored in, processed, and operated on by a computer. The term does not include computer software.

"Computer software," as used in this clause, means (i) computer programs which are data comprising a series of instructions, rules, routines, or statements, regardless of the media in which recorded, that allow or cause a computer to perform a specific operation or series of operations and (ii) data comprising source code listings, design details, algorithms, processes, flow charts, formulae, and related material that would enable the computer program to be produced, created, or compiled. The term does not include computer data bases.

"Data," as used in this clause, means recorded information, regardless of form or the media on which it may be recorded. The term includes technical data and computer software. For the purposes of this clause, the term does not include data incidental to the administration of this contract, such as financial, administrative, cost and pricing, or management information.

"Form, fit, and function data," as used in this clause, means data relating to items, components, or processes that are sufficient to enable physical and functional interchangeability, as well as data identifying source, size, configuration, mating, and attachment characteristics, functional characteristics, and performance requirements; except that for computer software it means data identifying source, functional characteristics, and performance requirements but specifically excludes the source code, algorithm, process, formulae, and flow charts of the software.
"Limited rights data," as used in this clause, means data, other than computer software, developed at private expense that embody trade secrets or are commercial or financial and confidential or privileged. The Government's and the Laboratory's rights to use, duplicate, or disclose limited rights data are as set forth in the Limited Rights Notice of subparagraph (g)(2) of this section if included in this clause.

"Restricted computer software," as used in this clause, means computer software developed at private expense and that is a trade secret; is commercial or financial and is confidential or privileged; or is published copyrighted computer software, including minor modifications of any such computer software. The Government's and the Laboratory's rights to use, duplicate, or disclose restricted computer software are as set forth in the Restricted Rights Notice of subparagraph (g)(3) of this section if included in this clause.

"Technical data," as used in this clause, means recorded data, regardless of form or characteristic, that are of a scientific or technical nature. Technical data does not include computer software, but does include manuals and instructional materials and technical data formatted as a computer data base.

"Unlimited rights," as used in this clause, means the rights of the Government and the Laboratory to use, disclose, reproduce, prepare derivative works, distribute copies to the public, including by electronic means, and perform publicly and display publicly, in any manner, including by electronic means, and for any purpose whatsoever, and to have or permit others to do so.

(b) Allocation of rights.

(1) Except as provided in paragraph (c) of this clause regarding copyright, the Government and the Laboratory shall have unlimited rights in –

(i) Data first produced in the performance of this contract;

(ii) Form, fit, and function data delivered under this contract;

(iii) Data delivered under this contract (except for restricted computer software) that constitute manuals or instructional and training material for installation, operation, or routine maintenance and repair of items, components, or processes delivered or furnished for use under this contract; and

(iv) All other data delivered under this contract unless provided otherwise for limited rights data or restricted computer software in accordance with paragraph (g) of this clause.

(2) The Contractor shall have the right to –
(i) Use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the Contractor in the performance of this contract, unless provided otherwise in paragraph (d) of this clause;

(ii) Protect from unauthorized disclosure and use those data which are limited rights data or restricted computer software to the extent provided in paragraph (g) of this clause;

(iii) Substantiate use of, add or correct limited rights, restricted rights, or copyright notices and to take other appropriate action, in accordance with paragraphs (e) and (f) of this clause; and

(iv) Establish claim to copyright subsisting in data first produced in the performance of this contract to the extent provided in subparagraph (c)(1) of this clause.

(c) Copyright –

(1) Data first produced in the performance of this contract. Unless provided otherwise in paragraph (d) of this clause, the Contractor may establish, without prior approval of the DOE, claim to copyright subsisting in scientific and technical articles based on or containing data first produced in the performance of this contract and published in academic, technical or professional journals, symposia proceedings or similar works. The prior, express written permission of the DOE (with notice to Laboratory) is required to establish claim to copyright subsisting in all other data first produced in the performance of this contract. When claim to copyright is made, the Contractor shall affix the applicable copyright notices of 17 U.S.C. 401 or 402 and acknowledgment of Government sponsorship (including contract number) to the data when such data are delivered to the Laboratory and the Government, as well as when the data are published or deposited for registration as a published work in the U.S. Copyright Office. For data other than computer software the Contractor grants to the Government, and others acting on its behalf, a paid-up, nonexclusive, irrevocable worldwide license in such copyrighted data to reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, by or on behalf of the Government. For computer software, the Contractor grants to the Government and others acting in its behalf, a paid-up nonexclusive, irrevocable worldwide license in such copyrighted computer software to reproduce, prepare derivative works, and perform publicly and display publicly by or on behalf of the Government.

(2) Data not first produced in the performance of this contract. The Contractor shall not, without prior written permission of the DOE via the Laboratory, incorporate in data delivered under this contract any data not first produced in the performance of this contract and which contains the copyright notice of 17 U.S.C. 401 or 402, unless the Contractor identifies such data and grants to the Government, or acquires on its behalf, a license of the same scope as set forth in subparagraph (c)(1) of this clause; provided, however, that if such data are computer software the Government shall acquire a copyright license as set forth in subparagraph (g)(3) of this clause if included in this
contract or as otherwise may be provided in a collateral agreement incorporated in or
made part of this contract.

(3) Removal of copyright notices. The Laboratory and the Government agree not to remove
any copyright notices placed on data pursuant to this paragraph (c), and to include such
notices on all reproductions of the data.

(d) Release, publication and use of data.

(1) The Contractor shall have the right to use, release to others, reproduce, distribute, or
publish any data first produced or specifically used by the Contractor in the performance
of this contract, except to the extent such data may be subject to the Federal export
control or national security laws or regulations, or unless otherwise provided in this
paragraph of this clause or expressly set forth in this contract.

(2) The Contractor agrees that to the extent it receives or is given access to data necessary for
the performance of this contract which contain restrictive markings, the Contractor shall
treat the data in accordance with such markings unless otherwise specifically authorized
in writing by the DOE (with notice to the Laboratory).

(3) The Contractor agrees not to assert copyright in computer software first produced in the
performance of this contract without prior written permission of the DOE Patent Counsel
assisting the contracting activity (with notice to the Laboratory). When such permission
is granted, the Patent Counsel shall specify appropriate terms, conditions, and submission
requirements to assure utilization, dissemination, and commercialization of the data. The
Contractor, when requested, shall promptly deliver to Patent Counsel a duly executed and
approved instrument fully confirmatory of all rights to which the Government is entitled.

(e) Unauthorized marking of data.

(1) Notwithstanding any other provisions of this contract concerning inspection or
acceptance, if any data delivered under this contract are marked with the notices specified
in subparagraph (g)(2) or (g)(3) of this clause and use of such is not authorized by this
clause, or if such data bears any other restrictive or limiting markings not authorized by
this contract, the DOE or the Laboratory, with the approval of DOE, may at any time
either return the data to the Contractor, or cancel or ignore the markings. However, the
following procedures shall apply prior to canceling or ignoring the markings.

(i) The DOE or the Laboratory, with the approval of DOE, shall make written
inquiry to the Contractor affording the Contractor 30 days from receipt of the
inquiry to provide written justification to substantiate the propriety of the
markings;

(ii) If the Contractor fails to respond or fails to provide written justification to
substantiate the propriety of the markings within the 30-day period (or a longer
time not exceeding 90 days approved in writing by the DOE for good cause
shown), the Government shall have the right, and may direct the Laboratory, to cancel or ignore the markings at any time after said period and the data will no longer be made subject to any disclosure prohibitions.

(iii) If the Contractor provides written justification to substantiate the propriety of the markings within the period set in subdivision (e)(1)(i) of this clause, the Government shall consider such written justification and determine whether or not the markings are to be canceled or ignored. If the Government determines that the markings are authorized, the Contractor shall be so notified in writing. If DOE determines that the markings are not authorized, the DOE shall furnish the Contractor a written determination, which determination shall become the final agency decision regarding the appropriateness of the markings unless the Contractor files suit in a court of competent jurisdiction within 90 days of receipt of the DOE's decision. The Government and the Laboratory shall continue to abide by the markings under this subdivision (e)(1)(iii) until final resolution of the matter either by the DOE's determination becoming final (in which instance the Government or the Laboratory with the DOE approval shall thereafter have the right to cancel or ignore the markings at any time and the data will no longer be made subject to any disclosure prohibitions), or by final disposition of the matter by court decision if suit is filed.

(2) The time limits in the procedures set forth in subparagraph (e)(1) of this clause may be modified in accordance with agency regulations implementing the Freedom of Information Act (5 U.S.C. 552) if necessary to respond to a request thereunder.

(3) This paragraph (e) does not apply if this contract is for a major system or for support of a major system by a civilian agency other than NASA and the U.S. Coast Guard agency subject to the provisions of Title III of the Federal Property and Administrative Services Act of 1949.

(4) Except to the extent the Government’s action occurs as the result of final disposition of the matter by a court of competent jurisdiction, the Contractor is not precluded by this paragraph (e) from bringing a claim under the Contract Disputes Act, including pursuant to the Disputes clause of this contract, as applicable, that may arise as the result of the Government removing or ignoring authorized markings on data delivered under this contract.

(f) Omitted or incorrect markings.

(1) Data delivered to the Laboratory or the Government without either the limited rights or restricted rights notice as authorized by paragraph (g) of this clause, or the copyright notice required by paragraph (c) of this clause, shall be deemed to have been furnished with unlimited rights, and the Government and the Laboratory assumes no liability for the disclosure, use, or reproduction of such data. However, to the extent the data has not been disclosed without restriction outside the Government, the Contractor may request, within 6 months (or a longer time approved by the Government for good cause shown) after
delivery of such data, permission to have notices placed on qualifying data at the Contractor’s expense, and the Government or the Laboratory with DOE approval may agree to do so if the Contractor –

(i) Identifies the data to which the omitted notice is to be applied;

(ii) Demonstrates that the omission of the notice was inadvertent;

(iii) Establishes that the use of the proposed notice is authorized; and

(iv) Acknowledges that the Government has no liability with respect to the disclosure, use, or reproduction of any such data made prior to the addition of the notice or resulting from the omission of the notice.

(2) The Government (with notice to the Laboratory) may also (i) permit correction at the Contractor’s expense of incorrect notices if the Contractor identifies the data on which correction of the notice is to be made, and demonstrates that the correct notice is authorized, or (ii) correct any incorrect notices.

(g) Protection of limited rights data and restricted computer software.

(1) When data other than that listed in subdivisions (b)(1)(i), (ii), and (iii) of this clause are specified to be delivered under this contract and qualify as either limited rights data or restricted computer software, if the Contractor desires to continue protection of such data, the Contractor shall withhold such data and not furnish them to the Laboratory or the Government under this contract. As a condition to this withholding, the Contractor shall identify the data being withheld and furnish form, fit, and function data in lieu thereof. Limited rights data that are formatted as a computer data base for delivery to the Laboratory or the Government are to be treated as limited rights data and not restricted computer software.

(2) -- (3) [Reserved]

(h) Subcontracting. The Contractor has the responsibility to obtain from its subcontractors all data and rights therein necessary to fulfill the Contractor’s obligations to the Government and the Laboratory under this contract. If a subcontractor refuses to accept terms affording the Government such rights, the Contractor shall promptly bring such refusal to the attention of the Government via the Laboratory and not proceed with subcontract award without further authorization.

(i) Relationship to patents. Nothing contained in this clause shall imply a license to the Government or the Laboratory under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government or the Laboratory.

(j) The Contractor agrees, except as may be otherwise specified in this contract for specific data items listed as not subject to this paragraph, that the DOE and the Laboratory or an authorized
representative may, up to three years after acceptance of all items to be delivered under this contract, inspect at the Contractor’s facility any data withheld pursuant to paragraph (g)(1) of this clause, for purposes of verifying the Contractor’s assertion pertaining to the limited rights or restricted rights status of the data or for evaluating work performance. Where the Contractor whose data are to be inspected demonstrates to the DOE or the Laboratory that there would be a possible conflict of interest if the inspection were made by a particular representative, the DOE or the Laboratory shall designate an alternate inspector.

VI. FAR 52.227-16 ADDITIONAL DATA REQUIREMENTS (JUN 1987)

Note: This clause does not apply to this contract if the contract is for the conduct of basic or applied research, as set out elsewhere in this contract, to be performed solely by a college or university, and the estimated costs is not in excess of $500,000.

(a) In addition to the data (as defined in the clause at 52.227-14, Rights in Data -- General clause or other equivalent included in this contract) specified elsewhere in this contract to be delivered, the Laboratory or the DOE may, at any time during contract performance or within a period of 3 years after acceptance of all items to be delivered under this contract, order any data first produced or specifically used in the performance of this contract.

(b) The Rights in Data -- General clause or other equivalent included in this contract is applicable to all data ordered under this Additional Data Requirements clause. Nothing contained in this clause shall require the Contractor to deliver any data the withholding of which is authorized by the Rights in Data -- General or other equivalent clause of this contract, or data which are specifically identified in this contract as not subject to this clause.

(c) When data are to be delivered under this clause, the Contractor will be compensated for converting the data into the prescribed form, for reproduction, and for delivery.

(d) The DOE via the Laboratory may release the Contractor from the requirements of this clause for specifically identified data items at any time during the 3-year period set forth in paragraph (a) of this clause.

VI. CONFLICT OF INTEREST:

The Contractor certifies that the Contractor has no other agreements in regard to inventions and discoveries or data in effect with any employer or with anyone else which will conflict with the terms and conditions of this agreement.
